

Australian Telecom Infrastructure Atlas 2009

This publication comes in the form of a presentation-style report. This report contains 341 maps of backhaul fibre, microwave, DSLAMs and Fixed Wireless Broadband infrastructure from Market Clarity's extensive [Telecoms Infrastructure Database](#) covering national, state, and capital city inner and outer metro areas.

The *Australian Telecom Infrastructure Atlas 2009* is delivered in Adobe PDF-format. Each map within the Atlas is provided in *Medium Resolution* format (approximately 1280 x 800 pixels)¹, with telecom infrastructure overlaid on population density or street maps.

The following map types are included in the *Australian Telecom Infrastructure Atlas 2009*.
